

# Happier

Vanotek

Chasing summer highs, over drive  
Kissing in the backseat when you ask me  
I'll be out of time, I'm a simple mind  
I know a good thing's come to an end

It's like I'm stuck in a moment I don't want  
Make it all the bad  
You know I gotta let you go  
My heart is falling, a part of you have moved on  
With someone didn't get moved on

You say, you, you are so much happier now  
My heart's not the reason you smile  
You wanted the easy life  
I couldn't change your mind  
I couldn't be who you wanted

Na-na-na-na  
You look happier  
Na-na-na-na  
You look happier  
Na-na-na-na  
You look happier  
Na-na-na-na

Staying up to sunrise  
Watch the world go by  
Trading all our secrets  
Week days feel like weekends  
Those were the better times  
Now you're 9 to 5  
How do you change like that over night?

It's like I'm stuck in a moment I don't want  
Make it all the bad  
You know I gotta let you go  
My heart is falling, a part of you have moved on  
With someone didn't get moved on

You say, you, you are so much happier now  
It hurts I'm not the reason you smile  
You wanted the easy life  
I couldn't change your mind  
I couldn't be who you wanted

Na-na-na-na  
You look happier  
Na-na-na-na  
You look happier  
Na-na-na-na  
You look happier  
Na-na-na-na

I want you to be happy but not happier  
I want you to be smiling but no wider  
I want to be loved, but not harder  
It's dragging me down

Cause yeah, you

You say, you, you are so much happier now  
It hurts I'm not the reason you smile  
You wanted the easy life  
I couldn't change your mind  
I couldn't be who you wanted

Na-na-na-na  
You look happier  
Na-na-na-na  
You look happier  
Na-na-na-na  
You look happier  
Na-na-na-na
