

Tell Me Who

Vanotek

The world gets lonely
Find me something to believe in
Maybe I'm blind
The world's gone mad now
Find me something to believe in
Maybe I'm blind

See I've been waiting for so long
Waitin' for so long
See I've been waiting for so long
Why does it always seem so wrong
Ooo, it seems so wrong
See I've been waiting for so long

Tell me who is gonna be there for you
What you do is gonna come back to you
Tell me who is gonna be there for you
What you do what you do

This ain't the truth I wanna find
Or am I dreaming
Maybe I'm blind
This ain't the place I said
I always wanna live in
Maybe I'm blind

See I've been waiting for so long
Waitin' for so long
See I've been waiting for so long
Why does it always seem so wrong
Ooo, it seems so wrong
See I've been waiting for so long

Tell me who is gonna be there for you
What you do is gonna come back to you
Tell me who is gonna be there for you
What you do what you do

Tell me who...
Just tell me who...

Tell me who is gonna be there for you
What you do is gonna come back to you
Tell me who is gonna be there for you
What you do what you do
