

Where The Wild Things Are

Vanotek

I woke up a little untamed
The chaos alive and well
I see fire in your veins
If you look, mine are the same yeah

Close your eyes (can you hear it?)
Listen quiet (can you feel it?)
Just past the trees (do you see it?)
You know where to go

Come find me in the dark
It's where I keep my heart, where the wild things are
You'll find it's not that far
Once you break down the wall to where the wild things are

Pass through the door to [?]
Hear all the roars, let your fantasies start
Come find me in the dark
Where the wild things are, where the wild things are
Where the wild things are, where the wild things are

In the lights you take the stage
We will fight, we'll rattle the cage
Feel the shake, the hurricane bones
You're a force they no longer control

Come find me in the dark
It's where I keep my heart, where the wild things are
You'll find it's not that far
Once you break down the wall to where the wild things are

Pass through the door to [?]
Hear all the roars, let your fantasies start
Come find me in the dark
Where the wild things are, where the wild things are
Where the wild things are, where the wild things are
Where the wild things are, where the wild things are

Where the wild things are, where the wild things are
