

A Long Drive Back

Vansire

I saw a banner on the overpass
And caught the message on the lower half
Now repent
The end is here at last
But we shrugged and hit the gas

It's a long drive back to you
The kind that always takes a day or two
I didn't know what love like that could do
I need you in my life to make it through
I'll see you soon

Holding on about as long as I can
In a landscape I don't understand
For a long while inside of a van
Where I miss you days on end cause

It's a long drive back to you
The kind that always takes a day or two
I didn't know what love like that could do
I need you in my life to make it through

Ah cause it's a long drive back to you
The kind that always takes a day or two
I didn't know what love like that could do
I need you in my life to make it through
I'll see you soon
