I got your message and I'm coming back, coming back
It's always been my mistake, yeah always
It's close to 7 and I'm running back, running back
It always felt like a chase to me anyways
You make me feel like the moment's passed, moment's passed
Maybe it is but I'm not sensing it
You think I fake it but it's not like that, not like that
It always felt like a movie to me either way
