

# America

VANT

America is burning  
I read it on TV  
I heard it in a book  
I felt it on the screen  
America is burning  
For all the world to see  
The right insane, put a bullet through the brain  
If you threaten to be free

USA is burning  
USA is burning

Britain's over-turning the iron lady  
The one's that chose the burden are the one's about to leave

White men are evil  
From A right through to Z  
They'll bury all our children under the money honey tree

USA is burning  
USA is burning

America is dreaming of white supremacy  
Korea launched a missile and started World War III  
America is dreaming of no democracy  
It seems insane, another dream inside a brain  
Under the money honey tree

America  
America  
America  
America  
America is burning  
America is burning  
America is burning  
America is burning

White men are evil  
From A right through to Z  
They'll bury all our children under the money honey tree

USA is burning  
USA is burning  
Is burning  
Is burning  
Is burning

America  
America  
America  
America
