ARE WE FREE?

VANT

Hey baby start a wildfire
In the crossfire
Don't go home

Question other earthlings
Fellow humans
Where's your soul?

I don't wanna give in
I don't wanna get out
But this air that we breath
Has filled me with doubt

My mama's got an earthquake, got a typhoon, volcano
My sister's got a black-eye, she got raped by, your first son

I don't wanna give in
I don't wanna get out
But this air that we breath
Has filled me with

Why did you decide not to fly anymore?
Why don't you get high when you dance anymore?
Where's that flame that ignites your soul anymore?
Is this all, is this it, when we're gone, are we free?

Don't wanna give in
I don't wanna get out
But this air that we breath
Has filled me with

Why did you decide not to fly anymore?
Why don't you get high when you dance anymore?
Where's that flame that ignites your soul anymore?
Is this all, is this it, when we're gone, are we free?

I don't wanna give in
I don't wanna get out
