

I Guess I'll End Up Being One Of Those People You Used As Well

VANT

I guess you've already used all of the people that you know
Just like the culture of the people in the city you love
If I knew then what I know now
I would of used all of the people in the city as well

I just can't go back to where I was before
I sold my records
And I wound up on the floor
I just wanna be myself
I can't be no-one else
I guess I'll end up being one of those people you used as well

I guess you've already lost all of the people that you knew
You're out the country making money in the emperor's shoes
If I knew then what I know now
I'd be out the country making money, with the people you knew

I just can't go back to where I was before
I sold my records
And I wound up on the floor
I just wanna be myself
I can't be no-one else
I guess I'll end up being one of those people you used as well

I guess I was a loaded gun
I fell in love with everyone
I guess I was a 5 or 6
Who knew all of the dirty tricks

Of love
Love on

I just can't go back to where I was before
I sold my records
And I wound up on the floor
I just wanna be myself
I can't be no-one else, I
Guess I'll end up being one of those people you used as well
Guess I'll end up being one of those people you used as well
