The weight of the world is  
(Insert here)  
The reality is so  
(Insert here)  
The colony breeds, they shake at their knees  
They live, then they die, then they  
(Insert here)

Live  
Die  
Give  
Try

So pointless, so small, so  
(Insert here)  
No hope, no-one, no  
(Insert here)  
Our morals have gone, what the hell have we done?  
You were free, then they came to  
(Insert fear)

Live  
Die  
Give  
Lie

Live fast, slow  
Die young, old  
Give all or nothing  
Try, steal, cheat

God, Allah, Muhammed  
Pope, Obama, Dalai Lama  
Weed, coke, speed  
Rape, murder, greed

We're born, then we're told not to cry  
(Not to cry)  
No-one should be forced to die so young  
How does it feel to be alive?  
We live, then we die, then we...

Live  
Die  
Give  
Try

Live  
Die  
Give  
Lie

Live short, long  
Die alone, with love  
Give a fuck, give up  
Lie to them, to me, to  
(Insert fear)
