

KARMA SEEKER

VANT

Your twisted heartache surrounds me
I don't know how you're still standing
Down, I convinced you to stay
Down, do you need to be free?

Karma seeker don't sway
Karma seeker don't sway
Karma seeker pure bliss
If you search you'll destroy what you miss

I've never felt so consumed
Your pheromones leave me bruised
Love, I'm a slave to your game
Love, will convince you to stay

Harrowed, how could he let you go?
Don't let him swallow, pride that he used to show

Karma seeker don't sway
Karma seeker don't sway
Karma seeker pure bliss
If you search you'll destroy what you miss

I used to fear the one you loved
I used to see him up above
But now he's gone
I used to fear the one you loved
I used to see him up above
But now he's gone
But now he's gone
I used to fear the one you loved
I used to see him up above
But now he's gone

Harrowed, how could he let you go?
Don't let him swallow, pride that he used to show

Karma seeker don't sway
Karma seeker don't sway
Karma seeker pure bliss
If you search you'll destroy what you miss

Down, I convinced you to stay
Down, do you need to be free?
Love, I'm a slave to your game
Love, will convince you to stay
