

Photographic Head

VANT

Walk in on something I don't wanna
See but I can't forget
Those blueprints that you laid out on your bed

I been trying build what I saw
But I just can't remember
Wish I had photographic head

When I get off the life support
I'll get over you
When I breathe my own oxygen
I'll be over you
Despite all of the chemicals
I'm reacting to
I'll move on to better things
And you'll be better too

Walk in on something I don't wanna
See but I can't forget
Those blueprints that you laid out on your bed

I been trying build what I saw
But I just can't remember
Wish I had photographic head

Working on something I don't wanna
Be but I can't

When I get off the life support
I'll get over you
When I breathe my own oxygen
I'll be over you
In spite of all the medicine
I'm prescribing to
I'll move on to better things
And you'll be better too

Walk in on something I don't wanna
See but I can't forget
Those blueprints that you laid out on your bed

I been trying build what I saw
But I just can't remember
Wish I had photographic head
