

Thank Lucifer

VANT

Heaven's on fire, thank Lucifer
Heaven's on fire, thank Lucifer
Heaven's on fire, thank Lucifer
Pray my God won't go to war

There's a devil black stain on my white collar
It won't wash out, so I gave it up
I sold my soul for rock 'n roll
So I can lead you all to the depths below

Fuck the gold and fuck the fame (louder)
Give me something else to blame (louder)
I'm losing faith I never had (louder)
Cause maybe God drives a Cadillac

Now he's rolling through the garden
Pouring petrol on the roses

Heaven's on fire, thank Lucifer
Heaven's on fire, thank Lucifer
Heaven's on fire, thank Lucifer
Pray my God won't go to war

Lucy lights up and smokes her brain
Frying like an egg on the asphalt plane
It's heaven on earth gone nuclear
God given sparks for Lucifer

Drain the poison from my veins
Fat mosquito sucks all day
Cocaine smiles and valley girls
Blow my mind and rock my world

Now he's rolling through the garden
Pouring petrol on the roses
Keep them smoking in the head wind
(Thank Lucifer)
Another blowout on the weekend
(Thank Lucifer)

Heaven's on fire, thank Lucifer
Heaven's on fire, thank Lucifer
Heaven's on fire, thank Lucifer
Pray my God won't go to war
Heaven's on fire, thank Lucifer
Heaven's on fire, thank Lucifer
Heaven's on fire, thank Lucifer
Pray my God won't go to war
