

TIME & MONEY

VANT

Baby blows bubbles of cuss and waves his father's flag on
Top of a fire, that fear of God is coming
Half of everything we ever loved has gone
Equality is free, you see, that's why there is none

Oil spill, cheap thrill, land fill, blood for honey
Trapped on an earth fuelled by time and money, money
Tick, tock, time bomb, hope's gone
All we've got is time

Continental drift is breaking every bone and
That glimmer we had is now a star exploding
Listen please, I didn't mean to burst your bubble
It's easy for me, for 1 in 3's no trouble

New breed, species, old greed I feel funny
Trapped on an earth fuelled by time and money, money
Tick, tock, time bomb, hope's gone
All we've got is time

There's a hole in my o-zone dear Liza, dear Liza
There's a hole in my o-zone dear Liza, a hole
Then nuke it dear Henry, dear Henry, dear Henry
Then nuke it dear Henry, dear Henry nuke it

Oil spill, cheap thrill, land fill, blood for honey
Trapped on an earth fuelled by time and money, money
Tick, tock, time bomb, hope's gone
All we've got is time
All we've got is time
Time
Time
