

## Into the Absurd

Varathron

A painful vision  
A travel into the unknown  
A trip for forgotten knowledge  
Forbidden memories

Storms and dead suns  
Forever are immortal  
Pain and torture  
The prophecy is coming!

The legion of demons  
Shall rule the earth  
The army of spirits  
And darkness shall reign!  
The legion of demons  
Shall rule the earth  
The army of spirits  
And darkness prevails!

Thousand years ago  
The prophecy was written  
A child will be born  
The chosen one  
The fallen one!

Among the centuries  
The dark thoughts arise  
They await the apocalypse  
Feeling the immortality  
He comes  
The strongest of all  
The wind blows  
The moon will rise again!

Souls crushed!

A painful vision  
A travel into the unknown  
A trip for forgotten knowledge  
Into the absurd!  
When darkness falls  
The evil will rise  
Arcane profound chaos  
Obey your master!
