Darkness

Varg

Everything around is black
Entombed where no light shines
Solitude is my friend in the depths
Imprisoned in darkness

No branch (No branch) bows
No wind (No wind) blows
No sound (No sound) reaches my ears

Burn the candles
Everything has to be dark
Here is no warmth
This is darkness

No path
No destination
Presumed dead
Trapped in the fog
No sound
No light
A silent scream
Arises from my throat

Aagh!
Help me!

This sallow branch can't hold me now
I plunge into the void
A last scream scares the light away
And wakes who sleep in shadow
Help me!
Help me!

Presumed dead
Here in darkness
Presumed dead
Trapped in the fog
Between you and Hel
Presumed dead
I beg for deliverance
Bring me away from here
Help me!

Burn the candles
Everything has to be dark
Here is no warmth
This is darkness

Darkness

Eternal darkness
