Winterstorm  
Winterstorm

The road back home, so long  
Winterstorm  
Through the sting of the ice and cold  
Winterstorm  
Yeah!

The wind, like a demon  
Claws at my skin  
The wind, my nemesis  
Sinks deep in my bones  
Blinded by snow  
Glaring white takes my sight  
Blinded by snow  
Everything turns to nothing  
Eyes are blind  
Eyes are blind

No more steps can I take  
One step further entails death

Winterstorm  
Winterstorm  
Winterstorm  
Winter... storm

The road back home, so long  
Winterstorm  
Through the sting of the ice and cold  
Winterstorm

I cry for the sun  
But it won't come  
There's no warmth to save me now  
The cold devours  
The ice enslaves  
The cold devours  
As the light cuts to black

The sun is dying

The sun is dying  
I follow the sun  
The sun is dead  
(The sun is dead)  
Eternal winter  
The sun is dead  
(The sun is dead)  
Eternal ice and snow  
The sun is dead  
(The sun is dead)  
The earth bears the light  
The sun is dead  
And so am I

Winterstorm  
Winterstorm  
Winterstorm  
Winterstorm  
Aaaagh!
