

Circles

Varials

Please forgive me, but I see
Wiping the slate clean
It's what you did to me
And what's the point when all that we do is bleed
When I know we're not where we need to be
It's what you did to me
All we do is bleed

It's like I'm stuck in a dream (It's like I'm stuck in a dream)
Pull me apart like a seam and I don't mind
You come alive when you watch me die
Just like a wound that you cauterize
This all just feels like running in circles (Circles, circles)

Burnt out and drowned
Tied up and bound to you
Come unwound for you
And what's the point when all that we do is bleed?
When I know we're not where we need to be

It's like I'm stuck in a dream (It's like I'm stuck in a dream)
Pull me apart like a seam and I don't mind
You come alive when you watch me die
Just like a wound that you cauterize
This all just feels like running in circles (Circles, circles)

Burnt out and drowned
Tied up and bound
Where I won't be found
This place is a burial ground
Bury me where I won't be found
This place is a haunting ground

I feel your venom in my veins
It's like phantom pain
A useless campaign
Phantom Pain

It's like I'm stuck in a dream (It's like I'm stuck in a dream)
Pull me apart like a seam and I don't mind
You come alive when you watch me die
Just like a wound that you cauterize
This all just feels like running in circles (Circles, circles)

Phantom Pain
