

Street

Varius Manx

I have been there
I still think of that accident
That dusky street
Looked at me and said be careful
I won't forget
This place which has no name
Because it'd be
Inside my mind forever

don't bve afraid
Of that night
I said to myself
Those drifting clouds
Overhead and everywhere

I met a child
Who was tender and sincere
He came to protect me
From bad people
My angel saved me so may times
It may have been emotion
Or just dream
