[Verse 1] A couple of years And I'm gonna know your name It's like I waited for ya forever And I know this might sound insane But it wont be long 'Til we're gonna take this up I'm talking about our future love You're so far away Maybe you're right next door Got me picturing your face again Something worth waiting for I put all the others behind me They don't live up I know what I want What I need to the T [Chorus] Baby if they asked me I would say I don't even know ur name And if they asked me Does it change? No, it don't change a thing Cuz there's something about the way you'll love me There's just something about the way you'll know me That I cant explain enough There's just something about our future love [3x] There's just something about our future love [3x] [Verse 2] Walking hand in hand Going for a second date I can picture what you're wearing And a kiss I can almost taste The thought of all the ways we'll meet for the very first time I can see the place, feel the love.. First sight [Chorus] [Bridge] Oh no The minute you pull up next to me We standing there like destiny When it feels like you're fighting just to breathe that's when you know The minute I pull up next to you Suddenly I don't know what to do Everything inside you says that I'm the one

[Chorus]
