```
You've been praying
And you've been believing
You've been holding on, to what He said
God made a promise His word is true
He has great things in store for You
(If You just use, use You memories
To think about, what He's already done)
God is so faithful your storm, won't last
Your trials and troubles will come to pass
(It may take some time, but I know) - It's on the way
(I know waiting, has never been easy
And giving up, is not an option)
God made a promise (His word is true)
His word is true
(He has great things)
He has great things (in store) in store for You
(I have seen, seen enough proof
There's no doubt, in my mind)
God is so faithful, (faithful God) Your storm won't last
Your trials and troubles (will come) will come to pass
(It may take some time, but I know) It's on the way
(Here we go...)
It's on the way
It's on the way (everything God promised) what you've been praying for
It's on the way
It's on the way (way...)
It's on the way (it's on the way) what you've been praying for, it's on the
What you've been praying, for it's on the way
What you've been praying, for it's on the way
What you've been praying, for it's on the way
What you've been praying, for it's on the way
```

It's on the way
It's on the way
It may take some time, but I know it's on the way
