BLINK

VASSY

This adrenaline
Running through my skin
Like a bullet train
And I'm giving in
All these flashing lights
Make me come alive
Keep me going all night

No rest for the wicked
We sleep when we're dead
Blink and you miss it
So live it instead
Break all the limits
We push through the red
No no no
No rest for the wicked
No no no
No rest for the wicked
No no no
No rest for the wicked
No no no
No rest for the wicked

Electricity
Racing through my veins
At the speed of light
I'm surrendering
All these flashing lights
Make me come alive
Keep me going all night

No rest for the wicked
We sleep when we're dead
Blink and you miss it
So live it instead
Break all the limits
We push through the red
No no no
No rest for the wicked

No rest for the wicked
We sleep when we're dead
Blink and you miss it
So live it instead
Break all the limits
We push through the red
No no no
No rest for the wicked

No rest for the wicked

No no no
No rest for the wicked
No no no
No rest for the wicked
No no no
No rest for the wicked

```
No no no
No rest for the wicked

No rest for the wicked

No rest for the wicked
```
