Chase

VASSY

Chase
Chase

I can't shake it
This echo in my head
Love is wasted
You were just an empty threat
I I I don't want it
But I I I I can't stop it
I can't outrun you
Won't let me catch my breath
When I think I've lost you
You're one more step ahead
No I I I don't want it
Oh no no, I I I can't stop it

But I gotta (Chase) chase these demons outta my head
(Chase) chase these demons outta my head
(Chase) close my eyes and I'm seeing red
You're never gonna let go
Follow me like an echo

(Chase) chase these demons outta my head
(Chase) chase these demons outta my head
(Chase) close my eyes and I'm seeing red
You're never gonna let go
Follow me like an echo

(Chase these demons outta my head)
(Chase these demons outta my head)
(Chase these demons outta my head)
You're never gonna let go
Follow me like an echo

I can feel it
Slowly creeping in
All this fear it
Settles on my skin
I I I don't want it
I I I can't stop it
But I gotta
(Chase)
(Chase)

But I gotta (Chase) chase these demons outta my head
(Chase) chase these demons outta my head
(Chase) close my eyes and I'm seeing red
You're never gonna let go
Follow me like an echo

(Chase) chase these demons outta my head
(Chase) chase these demons outta my head
(Chase) close my eyes and I'm seeing red
You're never gonna let go
Follow me like an echo

(Chase these demons outta my head)

(Chase these demons outta my head)
(Chase these demons outta my head)
You're never gonna let go
Follow me like an echo
