

Distance

VASSY

Young girl living in the city
She's been dreaming big, thinking all pretty
She knows just how it goes with distance

Wise guy living out of town
He's been driving his old man's thing around
He knows just how it feels with distance

Don't listen to the words that come out their mouth
When it's filled with fear, it's all about doubt
Don't listen to them, don't listen to them
Don't listen to the voice that's filled with hate
When it's all about lies, it's nothing but pain
Don't listen to them, don't listen to them

I wanna love you, love you, love you, love you like I'm holding you
I wanna feel you, feel you, feel you like I'm needing you
So we better rise up to feel the sun again
Hold out for summer born romance
It's you and me for eternity
So hold on

(It's you and me for eternity)

Young hearts living on the road
Cruising late night but never alone
They know just how it goes with distance

Old soul trapped inside
With the same four walls to confine
They know just how it feels with distance

Let your heart run free now
Blame it on me now
'Cause I can see you close tonight
Don't burn up bridges down
We'll be alright now
'Cause I can feel you close tonight

I wanna love you, love you, love you, love you like I'm holding you
I wanna feel you, feel you, feel you like I'm needing you
So we better rise up to feel the sun again
Hold out for summer born romance
It's you and me for eternity
So hold on

I wanna love you, love you, love you like I'm holding you
I wanna feel you, feel you, feel you like I'm needing you
It's alright to get a little bit down
It's alright, we live only now
It's you and me for eternity
Hold on
You and me for eternity
Hold on
You and me for eternity
