

Make It Count

VASSY

There's a light I need to follow
There's a soul I need to find
I won't beg, steal or borrow
'Cause we're all one of a kind
It's a good life that's worth livin'
Find a love that never fades
When you're here I get that feelin'
Now I'll never be afraid

It's a lazy summer day
All our worries drift away
And all that's left to say

We don't want to go home right now
We don't want to go home right now
Stay with me till the sun comes out
Got one shot so let's make it count
We don't want to go home right now
We don't want to go home right now
Stay with me till the sun comes out
Got one shot so let's make it count
