

# Midnight

VASSY

Is it the way  
The way you touch my body  
I can't explain mhm mhm  
Pulling me in  
You got me where you want me  
Under my skin mhm mhm

Running through my mind  
You're just like a melody  
Even though I try  
I can't fight your energy  
We know where it's going  
Each time you look to me

That's what happens after midnight  
It's when I hold you so tight  
Till the morning brings the daylight  
Keep my body burning all night

Give me your lips  
Tonight I want to fall in  
Give me your kiss ooh ooh  
And I want to stay  
Right here till the morning  
We can't escape ooh ooh

Running through my mind  
You're just like a melody  
Even though I try  
I can't fight your energy  
We know where it's going  
Each time you look to me

That's what happens after midnight  
It's when I hold you so tight  
Till the morning brings the daylight  
Keep my body burning all night

Midnight midnight midnight  
Midnight midnight  
Midnight midnight midnight  
Midnight midnight

Time slows  
Don't let go  
We don't know what we do  
Time slows  
Don't let go  
We don't know what we do

That's what happens after midnight  
It's when I hold you so tight  
Till the morning brings the daylight  
Keep my body burning all night

Midnight midnight midnight  
Midnight midnight

Midnight midnight midnight  
Midnight midnight
