Off Switch

VASSY

There's something electric
Between you and I
The way we connected
I can't describe
We're right on the edge of
Blurring the lines
Don't know why I'm scared of
This rush inside

Every time I feel your eyes crash into mine
I'm trying to focus
Lost in the moment
This adrenaline is getting hard to hide
I'm trying to slow down
Oh yeah

I wish my heart it had an off switch
Cause boy I don't know how to stop this
Each time I see you I'm like ooh la la la la la
Ooh la la la la la, ooh la la la la la
I wish my heart it had an off switch
I wish my heart it had an off switch

You stay in my system
And run through my veins
You got me wishing
I could rearrange
All these thoughts that I keep overthinking
In your ocean and my heart is sinking

Every time I feel your eyes crash into mine
I'm trying to focus
Lost in the moment
This adrenaline is getting hard to hide
I'm trying to slow down
Oh yeah

I wish my heart it had an off switch
Cause boy I don't know how to stop this
Each time I see you I'm like ooh la la la la la
Ooh la la la la la, ooh la la la la la
I wish my heart it had an off switch
I wish my heart it had an off switch

Every time I feel your eyes crash into mine
I'm trying to focus
Lost in the moment
This adrenaline is getting hard to hide
I'm trying to slow down
Oh yeah

I wish my heart it had an off switch
Cause boy I don't know how to stop this
Each time I see you I'm like ooh la la la la la
Ooh la la la la la, ooh la la la la la
I wish my heart it had an off switch
I wish my heart it had an off switch
