

# Our Moment

VASSY

We've spent all our lives to see our dreams  
We've given our hearts to win and feel  
We never give up until we hit the top  
We've always the ones to never stop

Breaking the walls, the ceiling above  
Just for the shot, to give all we got  
Cause right here and now, we finally get to show it

This is our moment  
We gotta take the chance to shine  
The right time to own it  
We're gonna reach and touch the sky  
So lets make it count for the world to see  
Let's show them we've arrived  
And this is our moment  
We've gotta take the chance to let it shine

We conquer the world, just you and I  
No holding us back, no feel tonight  
Cause we're born to win, we're champions of the globe  
So let's wave our flag, it's ours to own

Breaking the walls, the ceiling above  
Just for the shot, to give all we got  
Cause right here and now, we finally get to show it

This is our moment  
We gotta take the chance to shine  
The right time to own it  
We're gonna reach and touch the sky  
So let's make it count for the world to see  
Let's show them we've arrived  
And this is our moment  
We've gotta take the chance to let it shine

This is it  
We don't quit  
We're beginning to rise above  
Here and now  
Have no doubt  
Heads up high, cause we're taking off

This is it  
We don't quit  
We're beginning to rise above  
Here and now  
Have no doubt  
Heads up high, cause we're taking off

This is our moment  
We gotta take the chance to shine  
The right time to own it  
We're gonna reach and touch the sky  
So let's make it count for the world to see  
Let's show them we've arrived  
And this is our moment

We've gotta take the chance to let it shine

To let it shine

To let it shine
