

OXYGEN

VASSY

I feel so free, float like a feather
Like summer in December
I feel your sweet surrender
Don't care if we hold on forever
My soul is under pressure
You are my sweet surrender

Love me, love me
I won't break
Want you to love me, love me
I won't break

When you breathe I'll be your oxygen
Keep you deep in my adrenaline
I could be your air when you are outta breath
I'll restart your heart before you reach the end

When you breathe I'll be your oxygen
Keep you deep in my adrenaline
I could be your air when you are outta breath
I'll restart your heart before you reach the end

Let me be your oxygen (Oxygen, oxygen)
Let me be your oxygen (Oxygen, oxygen)
Let me be your...
(Oxygen, oxygen, oxygen)
(Oxygen, oxygen, oxygen)

Under your skin, into your bloodstream
I wanna run through your veins
With every breath that you take
I'm sinking in with every heartbeat
I'm falling through your atmosphere
All my worries disappear

Love me, love me
I won't break
Want you to love me, love me
I won't break

When you breathe I'll be your oxygen
Keep you deep in my adrenaline
I could be your air when you are outta breath
I'll restart your heart before you reach the end

When you breathe I'll be your oxygen
Keep you deep in my adrenaline
I could be your air when you are outta breath
I'll restart your heart before you reach the end

Let me be your oxygen (Oxygen, oxygen)
Let me be your oxygen (Oxygen, oxygen)
Let me be your...
(Oxygen, oxygen, oxygen)
(Oxygen, oxygen, oxygen)
