

## It's Time

VAST

I made you come to me  
I'm still waiting for love to arrive  
The flowers are gone they've been for a while  
I'm still waiting for them to arrive  
I know you wanted this, I wanted it too  
We've tried everything and it still isn't working

It's time... It's time  
It's time to say a strong goodbye

I made you come to me  
I'm still waiting for love to arrive  
The flowers are gone they've been for a while  
I'm still waiting for them to arrive  
I know you wanted this, I wanted it too  
We've tried everything and it still isn't working

It's time... It's time  
It's time to say our last goodbye
