disaster

vaultboy

You're like an earthquake
Where you go the ground shakes
There's only heartbreak
Where you've been

But you talk a good game
Loving with no shame
Knowing that you'll take
All you give

The way that you do damage
To yourself but end up wounding
Someone else
How do you manage?
I can't tell if you like living
Life like hell

Cause baby you're a disaster
How you only hurt
Leave everyone in the dirt
Always make everything worse

Baby you're a disaster
With nothing to gain
All you ever cause is pain
Don't know how you never change
But baby you're a disaster
Baby you're a disaster

You're like a volcano
Cause there's no way ill know
Whenever you're 'bout to explode

People watch in amazement
Like how does she do it?
How something so beautiful unfolds

The way that you do damage
To yourself but end up wounding
Someone else
How do you manage?
I can't tell if you like living
Life like hell

Cause baby you're a disaster
How you only hurt
Leave everyone in the dirt
Always make everything worse

Baby you're a disaster
With nothing to gain
All you ever cause is pain
Don't know how you never change
But baby you're a disaster
Baby you're a disaster

The way that you do damage

To yourself but end up wounding
Someone else
