

# i can't do anything right

vaultboy

We start talking  
Till we stop talking  
Was it something that I said  
Why is it so difficult  
Is this typical  
Every message on read

And then it's over before it  
Over before it, over before it begins  
It happens over and over  
Over and over, over and over again

They say it's all in my head  
But it's so hard to explain  
If I have the right words  
They come out the wrong way  
I'm bad under pressure  
But what can I say  
I can't do anything  
I can't do anything  
I can't do anything right

Mmm

I can't do anything right

Mmm

I can't do anything right

Mmm

I can't do anything  
I can't do anything  
I can't do anything

Made plans hanging out  
Late night chinatown  
I thought they were my friends, until  
No one's showing up  
No call, no response  
I don't know what I did

But the night is over before it  
Over before it, over before it begins  
It happens over and over  
Over and over, over and over again

They say it's all in my head  
But it's so hard to explain  
If I have the right words  
They come out the wrong way  
I'm bad under pressure  
But what can I say  
I can't do anything  
I can't do anything  
I can't do anything right

Mmm

I can't do anything right

Mmm

I can't do anything right

Mmm

I can't do anything

I can't do anything  
I can't do anything
