

## Bodies

## Vaults

You watched me, what I am afraid of  
Well I'll tell you, it's no secret

I'm afraid that I've built myself so tall  
No one will see me when I'm falling  
I'm afraid that I've built myself so tall  
No one will see me when I'm falling

The end, the end  
The dark, the dark  
Obsidian, a miracle in you

Yes, I'm afraid that I've built myself so tall  
You won't catch me when I'm falling  
I'm afraid that I've built myself so tall  
You won't see me when I'm falling

I'll be the falling bodies, floor by floor  
I wanna watch them now, what were they thinking then?  
I'll be the falling bodies, floor by floor  
I wanna watch them now, what were they thinking then?

Any second now...
