

## Overcome

Vaults

Take apart the day and nights  
Get hung up on somebody's ship  
I will help to comfort you until I'm losing it  
Take the time to memorize  
And before your eyes, I'll disappear  
Well I'll be there to watch you slip into oblivion

'Cause we feel so overcome  
I breathe in deeper, I'm tryna feel nothing at all  
'Cause we feel so overcome  
I breathe in deeper, I'm tryna feel nothing at all

Come and leave your friends behind  
It's dead in here, the hour is late  
I'd love to stay and talk a while but I just can't relate  
Eyes are wide and obvious  
Just focus on the rise and fall  
Could this be real love I feel or just some complicate?

'Cause we feel so overcome  
I breathe in deeper, I'm tryna feel nothing at all  
'Cause we feel so overcome  
I breathe in deeper, I'm tryna feel nothing at all

We breathe in deeper, we take it 'til it's gone  
Get fucked forever, forever's been and gone  
I'll breathe in deeper, I'm tryna feel nothing at all

'Cause we feel so overcome  
Yeah, I'll breathe in deeper, I'm tryna feel nothing at all  
Just overcome  
We breathe in deeper, we take it 'til it's gone  
Get fucked forever, forever's been and gone  
I'll breathe in deeper, I'm tryna feel nothing at all  
Just overcome
