

Poison

Vaults

Cold as the wind that blows
Hot as the western sun
We both know you're swinging blind
Punch drunk on the floor

Won't you let me poison your heart?
Poison
Won't you let me poison your heart?
Poison

Take it strength by strength
I want you to show me weak
"Hold your pretty head high"
You'll hear me whispering

Won't you let me poison your heart?
Poison
Won't you let me poison your heart?
Poison

Won't you let me poison your heart? (Let me fall in...)
Poison (...under your skin)
Won't you let me in? (Let me fall in under your skin...)
Poison (Let me fall in under your skin...)
Won't you let me in? (Let me fall in under your skin...)
Poison (Let me fall in under your skin...)
Won't you let me poison your heart?
