Don't Wait

Vaux

You got a shot at last
A chance to know for sure,
That things will never be
The way they were before.
And when it comes around
Try to run and hide.
When all the lost are found
We keep what we find.

It's gonna take forever to run
It's gonna take forever to run back home.
Don't wait for me, all in time.
Don't wait for me, i'll be fine
It's gonna take forever.
You called off all the fights
And ran the race for me.
When all the lights go out
It's not that hard to see.
As all the walls come down
You got to choose your sides.
When all the lost are found,
We keep what we find.

Don't wait for me, all in time.
Don't wait for me, i'll be fine
