

Everyday

Vaux

The chances are you've had enough
The feeling's gone for giving up
We see a barren
Everyday
The chances are i'm gone
And the feeling's alright
We're burning out
Turn off turned out
Hold on all the same
Attach the cord to ground
Hard to let it go when it's on
Don't turn the key just yet
I'm getting tired now
Hard to stay awake when it's on

'cause everyday is second best
Watched them all with such unrest
Further bent and further broke
And everyday blends with the last
Routine check-ups manifest
All my time and all my will

Take the time, for all our last days
Save mine, until its all
Gone by, and layed to rest

Our world
Awake
Your over order means nothing to me

And why do we stay and why don't we go
My guess is 'cause were sentimental
We sit on the edge with no where to turn
I can't help but think were gonna burn

Test the line
It's strong enough
It does my job
It gets my air
This hand to hand
This cord to wall
This piece to water
We withdraw
Close the door
The engine hums
All quiet now
My body numbs

The chances are you've had enough
The feelings gone for giving up
We see a barren
Everyday
Hold on all the same
Attach the cord to ground
Hard to let it go when its so
Everyday is second best
Watched them all with such unrest

Further bent and further broke
And everyday blends with the last
Routine check-ups manifest
All my time in all my will

Then why don't we stay
Then why don't we go
My guess is 'cause we're sentimental
We sit on the edge
With no where to turn
I can't help but think we're gonna burn
