

# Never Better

Vaux

It's not hard, letting go  
I gave up long before, i lost it all the other day  
The only way i'm, getting by is getting low  
I'm unreliable  
Is it still worth it  
It never gets better than this (we come crashing)  
Never better than this? (we come crashing down)  
For as long as you live (we come crashing)  
It never gets better than this.  
Maybe i said too much  
Maybe i pushed too far  
Like seeing you wound up, i'm not gonna lie  
And giving up is getting old  
I'm not invincible  
Is it still worth it  
It never gets better than this (we come crashing)  
Never better than this? (we come crashing down)  
For as long as you live (we come crashing)  
It never gets better than this.  
Things couldn't get much worse  
Good to know, good to know you  
Than they are right now  
Good to know, good to know you  
  
It never gets better than this (we come crashing)  
Never better than this? (we come crashing down)  
For as long as you live (we come crashing)  
It never gets better than this.
