

Remedy For

Vaux

Sought a way out
See the suns final blow
Cause it's hard to describe yourself
Without biting your own teeth
So lay it out
Pray it is too hot outside
So we can stay awhile
And sing
And talk
And laugh
I thought i'd hold you to come around
I wanted you to stop lay it out
You said it sincere this time
Pray it's too hot outside
So we can stay a while
And sing
And talk
Don't let me sit aside
While you try and find out
If our sights are on the same thing
If these pages are turning
If our lives are in line
