

## We Speed

Vaux

Get out get out  
It's what to pay  
A chance to move for unleaded  
Get out get out  
Won't stake a claim  
Or stand our ground for a minute  
Started to awake  
By a curve in the road  
Forward when we brake  
Our late eyes closed  
Edging on the line  
If we're lucky it holds  
Worth getting fined  
For time has stalled  
Sucks you in... starts to stay... for all time  
We speed as we sang  
Make time turn the tires  
And that's how it goes and that's how it goes  
We speed from the night  
With distances left  
When it's only the road when it's only the road  
We speed from status  
A 9 to 5 world  
And that's how it goes and that's how it goes  
We speed as we can  
Make our days long  
When it's only the road when it's only the road
