

# Heading For A Fall

Vaya Con Dios

**A** **G**  
A turn of the key And the door is pushed open, now  
**A** **G**  
He walks into the room But doesn't take off his coat  
**A** **G**  
Kisses me softly Without saying a word, now  
**A** **G**  
There's that look in his eyes That makes me feel the cold  
**C** **G**  
When I try to find out 'Bout what's troubling his mind  
**C** **G**  
He turns away and sighs And says give me some time  
**C** **G**  
Maybe things would get better If I learned to be patient  
**C** **D**  
What I wanted was love Not an imitation

And I know it

**G**  
We're heading for a fall  
**F**  
For a fall,  
**G**  
We're heading for a fall  
**F**  
We're heading for a fall  
**G**  
We're heading for a fall  
**G** **F**  
We lie between sheets And he stares at the ceiling, now  
**G** **F**  
Me, I'm trying to sleep But I'm trembling inside  
**G** **F**  
If she's haunting his dreams Then why don't he say it now?  
**G** **F**  
Why stay if it's her that he wants in the end?  
**B** **F**  
If he tried to explain I'd try to understand  
**B** **F**  
Maybe I'd feel the same I'm not sure of myself  
**B** **F**  
We surrendered so soon In the arms of temptation, now  
**B** **C**  
What I wanted was love Not an imitation

And I know it

**F**  
We're heading for a fall  
**Es**  
For a fall,  
**F**  
We're heading for a fall  
**Es**  
We're heading for a fall  
**F**  
We're heading for a fall
