

Some Like It Hot

Vaya Con Dios

some like it high, some like it low some like it fast, some like it slow
some hold on tight, some let it flow some like the rain, some like the snow

I like it hot and I like it when you take it real slow I don't like it fast,
no I don't like it fast, and I don't like the cold I want it to last,
now I want it to last and I want you to know Think of the past as the best
and then let it go.
(let it go)

Some like to stay, some like to go Some like to catch, some like to throw
Some like to have, some like to show Some don't want back, some want it all
(some want it all)

I like hot, and I like it when you take it real slow I don't like it fast,
no I don't like it fast, and I don't like the cold I want it to last,
now I want it to last and I want you to know Think of the past as the best
and then let it go.
(let it go)

Some like high some like it hot some like it low, some like it
