

Only One

VCHA

Picture me looking so cute, like O-M-G
Dreaming 'bout ya
Treasure, let's find out what's buried underneath

When I'm walking through
That door, I make a scene
I sparkle like it's too bright to ignore
You're the only one
Who's got my full permission to explore
We both know what we're thinking
It's not complicated

I could be the one and only one
I could be your stars, moon, and your sun
Seven billion people here to love
But you make me feel like the only one

Only one that knows your heart
Your highs, your lows
Only one that knows
The words you're gonna say
Before you say 'em
Only one that knows your kiss
It hits my soul
You make me feel like the only one

My friends are jealous
They say when I'm not with you
I'm a little hellish
S-s-sorry, I'm not sorry
If they hate me
'Cause I changed your name
In my phone to my baby

When I'm walking through
That door, I make a scene
I sparkle like it's too bright to ignore
You're the only one
Who's got my full permission to explore
We both know what we're thinking
It's not complicated

I could be the one and only one
I could be your stars, moon, and your sun
Seven billion people here to love
But you make me feel like the only one

Only one that knows your heart
Your highs, your lows
Only one that knows
The words you're gonna say
Before you say 'em
Only one that knows your kiss
It hits my soul
You make me feel like the only one

Only, only, only, only one

Only, only, only, only one
Only, only, only, only one
Only, only, only, only one

I could be the one and only one
I could be your stars, moon, and your sun
Seven billion people here to love
But you make me feel like the only one

Only one that knows your heart
Your highs, your lows
Only one that knows
The words you're gonna say
Before you say 'em
Only one that knows your kiss
It hits my soul
You make me feel like the only one

Only, only, only, only one
Only, only, only, only one
Only, only, only, only one
