

# XO Call Me

VCHA

I don't wanna leave here without me telling you  
X-O, call me

Got a baseline, and my heads noddin'  
It's game time, we ownin' the night  
Then you walked in, so hypnotizing  
Come my way, oh, what you waiting for?  
The kinda love you can't ignore  
You've never danced like this before  
So, if it's feelin' right  
Why should we say goodbye (Bye, bye, b-b-b-bye)

Call me  
We don't have to leave the party  
Lonely  
It's the start of something, start of something  
Low key  
I could see us doing this forever  
I don't wanna leave here without me telling you  
X-O, call me

Call me  
I like your vibe, I like your style  
Show me  
'Cause it's now or never, now or never  
Full speed  
I could cruise around with you forever  
I don't wanna leave here without me  
Telling you  
X-O, call me

Hello  
It's our time, yea, it's our moment  
Let's go  
This right here is somethin' magic  
We both  
Got a crush like woah (Woah)  
Floating to the sky, now watch me soar (Hey, hey, hey)  
The kinda love you can't ignore (Hey, hey, hey)  
Could see us doin' it for sure  
So, if it's feelin' right  
Why should we say goodbye (Say goodbye, yeah)

Call me  
We don't have to leave the party  
Lonely  
It's the start of something, start of something  
Low key  
I could see us doing this forever  
I don't wanna leave here without me telling you  
X-O, call me

Call me  
I like your vibe, I like your style  
Show me  
'Cause it's now or never, now or never  
Full speed

I could cruise around with you forever  
I don't wanna leave here without me  
Telling you  
X-O, call me

Tell me if I've been on your mind (Yeah)  
All the things that you like  
I've been everywhere, seen everyone  
But what we got feels right  
'Cause you've been all on my mind (Yeah)  
Yeah, you're the one that like  
Oh, I don't wanna leave here  
Without me telling you  
X-O, call me

Call me  
We don't have to leave the party  
Lonely  
It's the start of something, start of something  
Low key  
I could see us doing this forever  
I don't wanna leave here without me telling you  
X-O, call me
