

Thinking about you and me  
Looking up, down the street (Yeah)  
We don't have much but here we are (Oh)  
Suitcase full of our dreams (Our dreams)  
Watching the stars go by  
Yeah, yeah (Oh yeah)  
Crazy when you think about it (Mm-mm)  
Underneath these lights we're drowning (Mm-mm)  
Throw all of my girls in the backseat  
Of a taxi and let's roll

Thank God for best friends  
On all the worst nights  
Some from the west end  
And from the east side  
So, when you freak out  
I'll be right by your side  
When I was low you built me up  
And brought me so high

Do you feel special (No)  
Do you feel replaceable (Yeah)  
You hear that voice inside your head  
It's saying here you are  
It's your time, time to shine  
On and on, and on, and on

There's one Y-O-U  
In the universe  
Don't be scared let 'em stare  
Show 'em what you're worth  
Woah-woah-oh  
Woah-woah, oh, oh, oh-oh  
There's no one just like you  
In the universe  
No regrets go and get  
All that you deserve  
Woah-woah-oh  
Woah-woah, oh, oh, oh-oh

Slow it down we don't gotta go fast  
Just follow the beat of your heart  
Boom, boom bass drum with the claps  
Don't forget we are who we are  
Already know (We are who we are)  
We know (We are who we are)  
Don't forget that we'll always be (We are who we are)

Do you feel special? (No)  
Do you feel replaceable? (Yeah)  
You hear that voice inside your head  
It's saying here you are  
It's your time, time to shine  
On and on and on and on

There's one Y-O-U  
In the universe

Don't be scared let 'em stare  
Show 'em what you're worth  
Woah-woah-oh  
Woah-woah, oh, oh, oh-oh  
There's no one just like you  
In the universe  
No regrets go and get  
All that you deserve  
Woah-woah-oh  
Woah-woah, oh, oh, oh-oh (Oh)  
  
Woah-woah, oh, oh, oh-oh
