VEDO

Might catch that flight one day  
Make a nigga want it  
Send them vibes my way  
You been sending lil subliminals a while now  
I never do but girl tonight I might reply now

Hit her back like don't play I'm on the way  
She sent back that birthday cake  
Told me I can have a taste  
And I can have it anyway  
I can't wait to have it in my hands no  
I'm glad we ain't got no mutual friends no  
She unsent that DM to send it again  
Just to make sure that she got my attention  
Then I like a couple pictures  
Let her know I'm fuckin wit her

Computer love  
Could that be your face I see  
On my computer screen  
You keep on testing me  
Computer love  
Come out them Vickie seeks  
Don't play girl let me see  
You know what I want

She send it to close friends  
Just for me to see  
Then she hit my DM  
For some privacy  
You been sending me them pictures and them videos  
Now I can't wait to get this shit on video

I can't wait to log in  
I can't wait to dive in  
You can't wait to tell your friend  
Stay up late till I get in  
Girl this that long overdue  
And I can't wait to get to you  
Know you feel the tension through  
This computer love

Like every picture
