Stay down since the beggining you know we gonna finish

I'm going to get this money and spend it with you girl
Baby, you the best I wanna give you the world
Put you on designer, siner
Can't even say the name where you find it, find it
You my day one
Them other women really don't compare to you girl
Anything that you want
I cop it for you girl
Shawty she my day one (day one)
Shout out to my day one, day one

Here before the fame, now we winning
Taking shots after shots, heads spinning
Standing on the couch in the V.I.P
This a celebration everything on me
I got my whole team with me (Whole team with me)
If a nigga start trippin' (If a nigga start trippin')
I know she gonna ride
She got my back like a spine
Cuz' she my day one
When I didn't have none
She was right there with the blessing
Don't know where she came from
Even I mess up she always come back like a rewind
That's real, so I got to keep it real
And when that money come
Got to make a statement
Make a payment
The house that you wanted
Already paid in
