

Deep (Hold You)

VEDO

Yeah
It's VEDO baby

Making love
I get lost inside of you whenever I fill you up
Loving and licking and kissing and waking your, body up
Tasting every part of your chemistry yeah
Running my fingers through your hair

Girl you know that I
I can't leave you alone
'Cause I still smell your scent on my body
When I hold you, yeah
Holding you close makes me want you
You know I love it when you take it there
Control me
And I make sure you're satisfied when I go (Go) go (Go)
Deep, deep, deep, deep, deep, deep

Love how the light shines your body
I can make your heart break like with just one touch
I love seeing your shadows on the wall when you ride me
Releasing all your tension hit it with precision

Girl you know that I
I can't leave you alone
And I still smell your scent on my body
When I hold you, yeah
Holding you close makes me want you
You know I love it when you take it there
Control me
And I make sure you're satisfied when I go (Go) go (Go)
Deep, deep, deep, deep, deep, deep

No holding back when I'm inside
Chest to chest can you feel my rise
Girl you could have it all yeah
Every inch of me, all my chemistry
'Cause I know that you're the one yeah
I confessed it with my tongue yeah
Girl there's no place that I'd rather be

So when I, I hold you it feels like holding
Holding you close makes me want you
You know I love it when you take it there
Control me
And I make sure you're satisfied when I go (Go) go (Go)
Deep, deep, deep, deep, deep, deep
