

It's VEDO, baby
Yeah

Standin' in, reel me in
Back against the wall
Know you feelin' it, militant
Tell me what you're thinkin'
Won't you fill me in
Girl, you take me high when you go low, yeah

Got me excited I'm 'round your way
So won't you come out and play?
Promise I won't bite it, girl, unless you say
You got my attention for now, yeah

So don't fuck this up, up, up, up
Don't fuck it up, up, up
Don't fuck it up, up
You get this shot, you better take it now
Girl, you better (Better)
Better put it down, down, down
When you come 'round, 'round, 'round
I got you fantasizin' if I let you have it
Don't fuck this up, up, up, up
Don't fuck it up, up, yeah

Ten and two, vision you open like a flower
Let me water you, follow you all around this room
I don't mind chasin' you
Can't wait to get you all alone, yeah (What?)
You do something to me
Girl, I'm excited, fires ignited
Oh, I'll sit back while you pilot
You know I won't fight
Girl, come land in my lap
I want to see how you react when I get in it
Pay attention

And don't fuck this up, up, up, up
Don't fuck it up, up, up
Don't fuck it up, up
You get this shot, you better take it now
Girl, you better (Better)
Better put it down, down, down
When you come 'round, 'round, 'round
I got you fantasizin' if I let you have it
Don't fuck this up, up, up, up
Don't fuck it up, up, yeah

Just don't fuck it up
