

Division

VEDO

It's Vedo, Baby
Oh ohh oh
I know that I shouldn't be in here

Don't your tits to hit the floor
So we don't need to go there
I know we never met before
But listen, baby
I've been sipping Henny all day
On the best week
At the most it's kinda taste
We got potential
I wanna fall in love with your mind
But this Henny got me blind

First visit, might go a little different
Pandora on the phone
Let it play while I kiss it
I hope she's submissive
I hope this don't create no division
When I pull up and let you get it
I know it's the first day
Want you in the worst way
Unlock the door and let me in it
Don't make me wait on it baby
Know that ain't my forte

(You know I) been a savage since day one
Gotta do better, trying to fuck em' on day one
Know I can get that pussy wetter than the first time
But that shit ain't gonna make you better
I know what happens when you move too fast (when you move too fast)
But baby I'm praying that a nigga don't crash
But if we do it
Ain't with good intentions
Oh oh oh-oh

First visit, might go a little different
Pandora on the phone
Let it play while I kiss it
I hope she's submissive
I hope this don't create no division
When I pull up and let you get it
I know it's the first day
Want you in the worst way
Unlock the door and let me in it
Don't make me wait on it baby
Know that ain't my forte

Maybe we can move slow
No one knows where I'm at
Cuz' I left the studio about 4 or some
Came through just to shot some

(Know that it ain't right
Being here tonight
Know I'ma leave you satisfied

This might be the last time
Oh)
