

Don't Change

VEDO

It's Vedo, baby
Yeah

So excited, so inspired
Oh ignite it, light my fire
She's my rider, give her my undivided
When I'm inside it, oh so hypnotizing

Girl you get all of me
And I can't hide it I wear it all on my sleeve
Oh yeah yeah, oh oh oh, oh yeah yeah
Now that your heart is mine
Girl, I love you 'til the end of time
Oh yeah yeah
As long as you stay the same

Girl don't you stop giving energy
Good love you giving me, baby
Good vibes and chemistry
Girl don't you ever change a thing, and I mean it
Heartbreak, you're my remedy
Good sex and privacy, daily
I'll love you to infinity
Just baby don't change a thing, and I mean it

Keep on smiling
Keep that vibin'
Oh can you stay for a while girl
Welcome to my world
You're so incredible
Every shot I take I wanna take you down down low
It's not the only reason I put you around round no
Gotta forgive me can't just look I wanna touch you

Girl you get all of me
And I can't hide it I wear it all on my sleeve
Oh yeah yeah, oh oh oh, oh yeah yeah
Now that your heart is mine
Girl, I love you 'til the end of time
Oh yeah yeah
As long as you stay the same

Girl don't you stop giving energy
Good love you giving me, baby
Good vibes and chemistry
Girl don't you ever change a thing, and I mean it
Heartbreak, you're my remedy
Good sex and privacy, daily
I'll love you to infinity
Just baby don't change a thing, and I mean it

Don't you change the way you are girl
I fell in love with your purple heart girl
You wear them battle scars with confidence
And I'm so happy to be your man, yeah
Far from perfect but worth the risk
Ups and downs but girl we can win

And through all the chaos you have a friend
Just as long as you don't stop

Girl don't you stop giving energy
Good love you giving me, baby
Good vibes and chemistry
Girl don't you ever change a thing, and I mean it
Heartbreak, you're my remedy
Good sex and privacy, daily
I'll love you to infinity
Just baby don't change a thing, and I mean it

Girl don't you stop giving energy
Good love you giving me, baby
Good vibes and chemistry
Girl don't you ever change a thing, and I mean it
Heartbreak, you're my remedy
Good sex and privacy, daily
I'll love you to infinity
Just baby don't change a thing, and I mean it
